8/14/01	A01-07-031	Pacific Gas and Electric Company, for exemption under Section 853 for easements on PG&E land allowing Delta Energy Center, LLC to maintain an electric transition structure for the Delta Project and CPN Pipeline to maintain gas facilities for the Delta Project and the Los Medanos Energy Center Project, or in the alternative for approval of easements under Section 851.
---------	------------	---

Summary: LATE FILED. On August 2, 2001, Steven F. Greenwald, attorney for Delta Energy Center, LLC ("Delta Energy"), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was Edward W. O'Neill, attorney for Delta Energy. Referring to Delta Energy's Emergency Motion for issuance of an Assigned Commissioner's Ruling granting interim authorization, Greenwald stated that expedited Commission authorization for use of PG&E property for a transition structure associated with the transmission line connecting the Delta Energy Center to the grid is required in order for plant construction to remain on schedule for commercial operation to meet Summer 2002 peak demands. O'Neill opined that the proposed order, which would have granted Delta Energy's Emergency Motion, but only on the condition that an officer of Delta Energy sends a letter to the Commission acknowledging the Commission's authority under three Public Utility Code sections and consenting to appear at a hearing on an order to show cause to determine whether criminal and civil sanctions should be imposed, would raise significant legal issues pertaining to the nature and extent of the Commission's subject matter jurisdiction and authority to impose sanctions on unregulated companies. O'Neill further stated that it would not be prudent for officers of Delta Energy, Calpine or Bechtel to make such an acknowledgement or consent to appear without a thorough legal analysis of the potential impacts of taking such action.
